

Position Title: React Developer

Location: Pune

Job Type: Full-Time / Contract

Company Overview:

RedBeryl is an innovative tech company focused on creating state-of-the-art solutions for clients worldwide. We are currently seeking a skilled and experienced React Developer to join our growing development team. The ideal candidate will have a passion for building scalable, efficient, and user-friendly web applications.

Role Overview:

As a React Developer with 5+ years of experience, you will play a pivotal role in designing, developing, and maintaining complex, high-performance applications using React.js. You will work closely with cross-functional teams to deliver dynamic and responsive user interfaces and ensure smooth interactions between front-end and back-end components.

Key Responsibilities:

- Develop new user-facing features with React.js, Redux, and related libraries.
- Build reusable code and libraries for future use, optimizing components for maximum performance across a wide range of devices and browsers.
- Collaborate with back-end developers and web designers to improve usability and meet technical requirements.
- Ensure the technical feasibility of UI/UX designs and provide feedback on potential design solutions.
- Maintain, improve, and optimize existing React applications.
- Develop and maintain clean, maintainable code following best practices and coding standards.
- Work with version control systems such as Git and participate in code reviews.
- Troubleshoot and debug applications to ensure optimal performance and responsiveness.
- Keep up-to-date with the latest trends in web development, specifically within the React ecosystem.
- Work closely with QA teams to ensure smooth application testing and deployment processes.

Required Skills & Qualifications:

- 5+ years of professional experience in React.js and front-end web development.
- Strong experience in React.js, Redux, React Hooks, and other modern React features.
- Proficient understanding of HTML5, CSS3, JavaScript (ES6+), and modern web development standards.
- Familiarity with RESTful APIs, GraphQL, or other API integration techniques.
- Experience with testing frameworks (e.g., Jest, Mocha, Enzyme).
- Strong knowledge of Git and version control workflows.
- Excellent problem-solving skills and a passion for writing clean, maintainable code.

- Experience working in Agile environments and familiarity with tools like Jira or Trello.
- Solid understanding of responsive design principles and mobile-first development.
- Experience with performance optimization techniques.
- Familiarity with cloud platforms like AWS, Azure, or Google Cloud is a plus.

Preferred Skills & Qualifications:

- Knowledge of TypeScript.
- Experience with Next.js or other SSR frameworks.
- Familiarity with UI frameworks like Material-UI, Ant Design, or Bootstrap.
- Familiarity with Webpack, Babel, and other build tools.
- Understanding of CI/CD pipelines.
- Familiarity with Node.js for full-stack development.

Benefits:

- Competitive salary and benefits package.
- Flexible working hours / Remote work options.
- Opportunities for professional growth and skill development.
- A collaborative and innovative team environment.

How to Apply:

Please submit your resume, along with a portfolio or GitHub profile showcasing your work, to hr@redberyltech.com
