Professional Summary:

Highly skilled and results-driven React Developer with 5+ years of experience in developing and maintaining dynamic, responsive, and high-performance web applications. Expertise in React.js, Redux, JavaScript (ES6+), and RESTful APIs. Adept at collaborating with cross-functional teams and optimizing applications for maximum user satisfaction and performance. Seeking to contribute technical expertise and innovative solutions to a forward-thinking team at [Company Name].

Key Skills:

- React.js, Redux, React Hooks, Context API
- HTML5, CSS3, JavaScript (ES6+), TypeScript
- RESTful APIs, GraphQL
- Git, GitHub, GitLab, Version Control
- Jest, Mocha, Enzyme (Testing)
- Webpack, Babel, NPM, Yarn
- Agile Methodologies (Scrum, Kanban)
- Responsive Design, Mobile-First Development
- UI Libraries: Material-UI, Ant Design, Bootstrap

Professional Experience:

Senior React Developer
XYZ Technologies | Pune | June 2021 – Present

- Developed and maintained large-scale React applications using React.js, Redux, and React Hooks.
- Optimized app performance, reducing load time by 30% through lazy loading, code splitting, and performance auditing.
- Collaborated with backend developers to integrate RESTful APIs, ensuring smooth data fetching and state management.
- Implemented reusable components and modular codebases, enhancing development speed by 20%.
- Led code reviews and mentored junior developers, improving overall code quality and team efficiency.

React Developer
ABC Solutions | Pune | March 2019 – May 2021

- Built responsive, mobile-first web applications using React.js and Redux.

- Worked in an Agile environment, contributing to sprint planning, daily standups, and retrospectives.
- Utilized Jest and Enzyme to write unit and integration tests, improving application stability and reducing bugs by 15%.
- Collaborated with UI/UX designers to implement pixel-perfect designs, ensuring a seamless user experience across devices.
- Integrated third-party libraries like Chart.js and Leaflet for data visualization and mapping features.

Front-End Developer
Tech Innovations | Pune| January 2017 – February 2019

- Developed front-end features for web applications using React, JavaScript, and HTML/CSS.
- Maintained and improved existing codebases, refactoring legacy code to enhance performance and readability.
- Worked closely with the design team to implement custom UI components based on design specifications.
- Participated in CI/CD implementation and continuous integration practices.

Education:

Bachelor of Science in Computer Science
Pune Univercity | Pune | Graduated: May 2016

Certifications:

- React.js Certification – [Institution Name]
- JavaScript Algorithms and Data Structures – FreeCodeCamp

Projects:

Project Management Dashboard
Developed a comprehensive dashboard application for project management, integrating real-time updates using WebSocket and REST APIs. Used React.js, Redux, and Material-UI to create a dynamic user interface.

E-Commerce Platform
Designed and implemented an e-commerce platform, including a shopping cart and product recommendation engine. Worked with a team to integrate payment gateways and handle large-scale product data efficiently.

This combination of a detailed job description and a corresponding resume provides clarity on the skills, experience, and attributes needed for a React Developer with 5 years of experience. You can tweak the resume based on your experience and specific projects.
